Pahokee Lions Club Will Sell Subscriptions To The Everglades News To Earn Enough Money To Buy Glasses For Underprivileged Children

Police Chief Says: Please Be Careful

Pahokee Police Chief Leon Guthrie, who along with his patrolmen, keeps a close eye on the Pahokee school zones during all hours of the day, said this week that he appreciates the cooperation the department is receiving this year from the motorists. "It sure makes an officer feel good when drivers seriously take the safety of the youngsters in consideration when driving through our school zones," the chief said.

Chief Guthrie and his men have a general reputation of kindness toward all motorists as they pass through the school zone but they also have another side—that of serious rebuke to those who step on the gas just a little too hard. Traffic tickets are not beyond consideration when the speed violation is flagrant.

Pahokee school children, through the cooperation of the drivers and the constant vigil of the police department, have been fortunate through the years. Not one serious accident has happened in any of the school zones, and Chief Guthrie said: "Let's hope that this cooperation continues through the present school year and none of our youngsters get hurt." He concluded by saying to all drivers: "Please be careful."

Plan Funeral For B. Elliott, Pahokee

Funeral services for B. Elliott, 58, of Pahokee, were being planned by the family Thursday afternoon when this newspaper went to press.

B. ELLIOTT
Former Legislator
Palm Beach County

following his death at 10 o'clock Thursday morning. He passed away in Palm Beach General Hospital at Lake Worth where he was taken on Wednesday after his condition worsened following his return to Lake Worth over the week end, from Duke University Hospital in Durham, N. C.

Mr. Elliott was a charter member of the Pahokee Rotary Club and served as president of that organization. At Thursday's meeting Acting President Robert O. Lampi, in announcing Mr. Elliott's death two hours before, asked all members to stand in a moment of silent tribute to the departed past president. Mr. Elliott served three terms in the state legislature from Palm Beach county and was elected to preside over the House of Representatives as Speaker during one of those terms. It was during this speakership that he was prominently mentioned as a candidate for governor.

Mr. Elliott was one of the pioneer residents of Pahokee, having opened the Ford Sales Agency there in 1922. He operated it through the years until five years ago when he sold out to L. A. Raulerson owner of the National Trucking Company of Jacksonville. Since that time Mr. Elliott had been engaged in real estate operations on the East Coast until he was incapacitated by his recent illness.

Survivors are: His wife, Velva one daughter, Mrs. Leo Wroten of Pahokee, three sons, Elmer E. Ronnie and Wayne; one brother Thomas of Pahokee; five sisters, Mrs. Lola Blakey of Orlando, Mrs. Juanita McLarty of Lake Worth, Mrs. Lorrain Doolittle of Fort Lauderdale, Mrs. Bennie Allen of Pahokee and Mrs. Hazel Kendrick of

Shirley Plant Gets Fresh White Paint

Shirley Brothers, Inc., plant at the railroad crossing in Pahokee received a new coat of white paint this week and the building, presents an attractive appearance to the passerby. The Shirley plant through the years has been one of the busy spots in Pahokee, rendering a concrete and building material service to customers in a wide area of the Lake-Okeechobee Region. The block plant located at the end of Avenue E on SR15 in Belle Glade in another Shirley enterprise that gives service to an ever-growing list of patrons in the Lake Area.

Blue Devils Play Riviera Beach 11

The Pahokee Senior High Blue Devils will open their football season in Cooley Stadium, West Palm Beach, this Friday night when they meet the Riviera Beach Green Hornets in a Suncoast Conference tilt.

Teams of the two schools met for the first time on the gridiron last year when Pahokee managed to squeeze out a 6-0 victory over the Hornets. This year's contest may prove even tougher for the Blue Devils as the Hornets won a one-point victory, upsetting the Stuart Tigers in their opener last week.

Coach Web Pell, who is being assisted in his coaching this season by Bill Howard and Bob Maxson, has an unexperienced and fairly light team this year, but is having more material to work with than last season when at times there were not enough players on the practice field to form two full teams for scrimmage. This season an average of 33 boys have been reporting for daily practice.

In tonight's game Pell plans to start James Smith at left end; John Hundley, left tackle; Curtis Russom, left guard; Renzo Echols, center; Mike Wilson, right guard; Claud Morgan, right tackle; Ralph Jones, right end; Denny Padgett, quarterback; James Suggs and John Davis, half backs; and Doug Blanton, fullback.

On the defense Freshman Harold Peacock will probably see considerable action as line backer, as well as Mike Watkins and David Fountain, defensive tackles, and Jimmy Vandegriff, defensive half back.

Bandmaster Robert O. Lampi's PHS Band will be present to give their ever-sparkling performance during the halftime show.

Mr. and Mrs. R. W. Sanders visited their son-in-law and daughter, Col. and Mrs. Andrew Keyes and family in Miami Sunday. Col. Keyes is reported to be critically ill.

Bradenton and his mother, Mrs. J. B. Elliott of Fort Lauderdale. His father, J. B. Elliott, 86, passed away on July 31 of this year.

Sales Team Has Begun Selling In Effort To Secure Enough Cash Commissions To Buy Glasses Now Needed For Emergency Cases

Members of the Pahokee Lions club started this week selling subscriptions to THE EVERGLADES NEWS in an effort to earn enough commissions to buy several pairs of glasses for underprivileged children. Officials of the club said that the Lions Club treasury is near depletion and that it is urgently necessary that some money be earned immediately to take care of the emergency cases needing glasses.

Paul Rardin, owner and publisher of THE EVERGLADES NEWS at Canal Point, made a very generous offer to the Pahokee Lions whereby they will be able to earn a substantial amount of commission within the next few weeks on subscriptions. The newspaper, established March 11, 1924, has been under Rardin's management for more than a quarter of a century and he has, during that time, made an effort to see that news of the Pahokee-Canal Point area and the Lake Region in general is featured in the publication.

D. B. Mathis, chairman of the sight committee of the Pahokee Lions, has taken on the job of organizing a selling team among the club members and already they have started their work of soliciting subscriptions. The price of the paper is \$2.00 per year—the same as it was the day it was established more than 35 years ago—and the Lions are earning a handsome commission on each sale. In fact, the Lions were more than happy with the proposed plan of commissions.

There are nearly 25 children in the underprivileged class in the Pahokee area who need glasses in order that they may continue to attend school, one of the paper-selling Lions said yesterday. "We must raise money now, if these youngsters are to be properly fitted to carry on their studies," he said.

So, here is your opportunity to kill two birds with one little rock. Spend a couple of bucks—get a good weekly paper visiting your home every week and at the same time help some underprivileged child to see properly and efficiently so that he may continue his studies.

USDA Club Holds First Season Meet

The Everglades USDA Club resumed their monthly meeting, September 14, 1960 in Belle Glade after a summer recess. The members lunched at the Dixiana Grill. Following the lunch, they met in the Fiber Laboratory at the Everglades Experiment Station where they viewed several films shown by Mills H. Byrom, Leader of the Long Fiber Plants Harvesting nad Processing Investigations. The films showed mechanized processing of lecheguilla, sansevieria, ramié and kenaf fibers. Following the films, Vic Green led the group in a discussion on the future sugar quota. Mr. Byrom then took the group on a tour of the machine shop where he demonstrated some of the machines and explained how the fiber was decorticated.

Guests attending the meeting were George Van den Bergh, Agronomy Advisor to the Department of Agriculture for ICA, Colombia, and Donald H. Alexander, Regional Director of the Plant Pest Control of ARS from Coral Gables, Florida. A new member joining the group was Jim Gifford, Entomologist, transferring from Tifton, Georgia to Canal Point. Mr. Gifford replaced D. D. Questel, who retired

in 1959 from the Everglades Experiment Station. Dr. Tom Bregger, Sugar cane Physiologist Emeritus, was elected as an honorary member in the club. Dr. Bregger, a former staff member at the Everglades Experiment Station, retired in 1958. Members attending the meeting were as follows: Carolyn Glover, Irene Doub, Dee Maxson, Dorothy O'Neal, Mills Byrom, Don Fishler, Hi Whitmore, Jack Little, Virgil Bracker, Griffin Bell, Frank Joyner, Doug Wilson, Vic Green, Ed Todd, Bascomb Belcher, Weldon Cardin, Robby Walker, Preston Duncleman, Don Waddell, and J. E. Roland.

Robert E. Hellwig, Chairman of the Club's Membership Committee, was transferred to Tifton, Georgia on July 1, 1960. Bob, an agricultural engineer, came to the Everglades Experiment Station in 1954 from Orient, Ohio where he was employed with the Belt Corporation. At the Everglades Station he worked on all phases of fiber mechanization, especially on sansevieria planting and kenaf harvesting and washing machinery. He is currently working on machinery for pelleting Coastal Bermuda Grass for stock feed at the Tifton Station. Bob is missed very much by his many friends in the USDA Club.

New University To Open First Time

TAMPA — Florida will take a big cultural and intellectual stride forward when the modern new University of South Florida opens at Tampa.

Rising swiftly across a 1,700-acre plot of wooded land some 10 miles northeast of the center of the city, the new university may well be the first such institution in the United States to be designed and built completely from scratch.

While other public higher education centers have developed out of existing institutions or have been built a college at a time, the University of South Florida will be a full-fledged university from the beginning, with four colleges, a faculty of 115 or more and well over 1,000 freshmen.

With a class being added each year, some 6,000 students in all four grades are expected by 1964. The faculty and staff by then will number close to 1,500 and as many as 15 buildings will be in use.

The new member of Florida's

state university system will officially begin operation with a convocation and dedication ceremony Sept. 26. Present will be most of the state's public officials and lawmakers and noted educators from throughout the state and nation. Classes will begin after the inauguration program, and thousands of friends, relatives and interested citizens will be present for the historic event.

BIRTHDAY PARTY

Debbie Smith, daughter of Mr. and Mrs. James T. Smith, and Sheila Mills, daughter of Mr. and Mrs. Roy Mills, jointly celebrated their seventh birthday anniversaries at a party held at the Mills home, with their mothers acting as hostesses. Contest prizes were won by Jol Crady and Teresa Douglas. Refreshments were served to approximately 35 guests.

COVERED DISH SUPPER

The Young Adults Class of the Canal Point Methodist Church School will hold a covered-dish supper in the educational building of the church Monday at 7 p. m.

ESCAPE ELECTROCUTION

Tanya Schroder, 23-month daughter of Mr. and Mrs. R. W. (Bobby) Schroder of Hypoluxo and granddaughter of Mr. and Mrs. R. J. Schroder of Pahokee, narrowly escaped electrocution recently when she bit into an extension cord attached to an electric drill her father was using at their home. The child was knocked unconscious by electric shock and a neighbor administered artificial respiration until an ambulance arrived to rush her to the hospital for emergency treatment.

WEEK OF PRAYER

Members of the Canal Point Baptist Woman's Missionary Society observed a week of prayer for State missions with two special meetings at the church under the direction of Mrs. D. P. Hughes, prayer chairman. The theme of the observance was "Think on these Things in Florida."

The Rev. Robert A. Shelley spoke on "The Lost Chord" at the monthly dinner meeting of the Methodist Men's Club held in the social hall of the Pahokee First Methodist Church.

Here's what the new $3\frac{3}{4}\%$ interest rate on U.S. Savings Bonds means to you:

\$3 = \$4 *fourteen months faster than before*

The Bonds you own are better than ever, too

The new $3\frac{3}{4}\%$ rate means your savings grow faster than before with U.S. Savings Bonds. \$3 becomes \$4, or \$3,000 becomes \$4,000 in just seven years, nine months. This applies to all Series E Bonds bought since June 1, 1959.

Then, all older Bonds, both Series E and H, pay more now—an extra $\frac{1}{2}\%$ from June 1 on, when held to maturity.

And, all Series E Bonds carry a new 10-year extension privilege. This means your Bonds will keep earning liberal interest automatically after maturity.

These three new cash benefits make today's U.S. Savings Bonds the finest in history. They make the ones you own now better, too.

More advantages of U.S. Savings Bonds

You can save automatically. Just tell your company how much to deduct every payday for Bonds, and your Bonds will be delivered to you. This way you can't forget to save. And, remem-

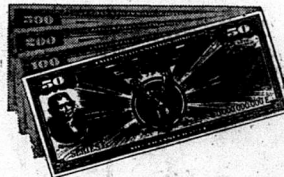

ber, the money you don't touch can't slip through your fingers.

You can get your money, with interest, when you need it. Your Bonds are a ready reserve to use anytime you wish. But, it pays well to hold them.

Your savings can't be lost or stolen. The U.S. Government guarantees to replace your Bonds, free, if anything ever happens to them.

You save more than money. The Bonds you buy help keep the peace because peace costs money. Money for better education, new scientific research, greater military strength. And the money you save helps strengthen our nation's economy which depends on the financial strength of individuals to keep it sound.

Start saving with U.S. Savings Bonds today. You'll save more than money.

You save more than money

Pick your savings target and shoot straight for it!

A home... financial security... a business of your own. Important savings targets like these cost money—a substantial sum—and more than most of us have. But here's a sure way for you to score a bull's-eye and walk off with the big prize you want.

The secret of saving is system. And the simplest, most automatic saving system ever devised is the Payroll Savings Plan. Best of all, you do more than save through Payroll Savings. You invest your money, too, and make it grow. Here's how it works:

Tell your company pay office how much you want to save each week. Then each pay period that amount will be put aside for you before you have a chance to spend it. Your money will go automatically into U. S. Series E Savings Bonds.

Because Savings Bonds earn good interest—3% compounded semiannually when held to maturity (9 years and 8 months)—they'll soon worth much more than you've invested in them. And your Bonds will continue to pay this same good interest as long as 39 years and 8 months. That means a return of up to 80% more than you originally paid.

And remember this. There's no guesswork or chance at the Payroll Savings Plan. It's absolutely safe and sure. Invest just \$7.20 a week. In 5 years you'll have Savings Bonds worth \$2063 in cash; in 10 years, \$4448.

Christian Science Group Of Canal Point

CURCHE OF CHRIST
The eternal, harmonious nature
of God's creation will be brought
out at Christian Science services
Sunday in the Lesson-Sermon on
the subject of "Reality."
Among the Bible passages to be
read are these verses from Psalms
(111:7, 8): "The works of his hands
are verity and judgment; all his
commandments are sure. They
stand fast for ever and ever, and
are done in truth and upright-
ness."

Readings from "Science and
Health with Key to the Scriptures"
by Mary Baker Eddy will include
this (208:20): "Let us learn of the
real and eternal, and prepare for
the reign of Spirit, the kingdom of
heaven,—the reign and rule of uni-
versal harmony, which cannot be
lost nor remain forever unseen."
The Golden Text is from Lamen-
tations (5:19): "Thou, O Lord, re-
mainest for ever; thy throne from
generation to generation."

New $3\frac{3}{4}\%$ interest on U.S. Savings Bonds

The Treasury explains why the new ones you buy and the ones you own now are better than ever

Q: How does the new $3\frac{3}{4}\%$ interest rate benefit me?

A: With Series E Bonds, the rate turns \$18.75 into \$25.00 fourteen months faster than the old rate. Your savings increase faster, because your Bonds mature in just 7 years, 9 months.

With Series H Bonds, the 10-year maturity period stays the same but more interest is paid you each six months. With both E and H Bonds the new rate works out to $2\frac{1}{2}\%$ for the first year and a half; then a guaranteed 4% each year to maturity.

Q: When did the new rate become effective?

A: June 1, 1959.

Q: Does the new rate change the Bonds I bought before June 1, 1959?

A: All older E and H Bonds pay more now—an extra $\frac{1}{2}\%$ from now on, when held to maturity. The increase takes effect in the first full interest period after June 1.

Q: Will the Bonds I own automatically earn their new rate?

A: Yes. You don't need to do a thing—just hold on to your Bonds.

Q: When my E Bonds mature, will they keep on earning interest?

A: Yes. An automatic 10-year extension privilege went into effect along with the new interest rate. This means your E Bonds will automatically keep earning interest after maturity.

Q: With the new interest rate, should I cash in my old Bonds and buy new ones?

A: No. The automatic $\frac{1}{2}\%$ increase makes it unnecessary—and in almost every case it is to your advantage to retain your present Bonds.

Q: How are series H Bonds different from series E Bonds?

A: The chief difference is this: You buy H Bonds at full face value and the interest is paid by Treasury

check every six months for the life of the Bond. You buy E Bonds at 75% of face value and the interest accumulates to maturity. H Bonds provide income for living expenses, while E Bonds build a nest egg for the future. That's why many retired people hold H Bonds and families saving for, say, a child's education, buy E Bonds.

Q: In what denominations can I buy series E and series H Bonds?

A: E Bonds: \$25 (cost \$18.75), \$50 (cost \$37.50), \$100 (cost \$75.00), \$200 (cost \$150.00), \$500 (cost \$375.00), \$1,000 (cost \$750.00), \$10,000 (cost \$7,500.00).

H Bonds: \$500, \$1,000, \$5,000 and \$10,000. They are priced at face value.

Q: How safe are U.S. Savings Bonds?

A: Savings Bonds are an absolutely riskless way to save. The United States Government guarantees the cash value of your Bonds will not drop, that it can only grow.

Q: What if my Bonds should be lost, stolen or destroyed?

A: You can't lose. Every Bond purchased is recorded by the Treasury. If anything happens to your Bonds they are replaced—free.

Q: Where can I buy Bonds?

A: Buy E Bonds at any bank—it takes only a few minutes. Buy them automatically through the Payroll Savings Plan where you work. This Plan means you can have any amount you name automatically deducted every payday. The Bonds you buy by installments are delivered to you automatically, too. Your bank will take your order for H Bonds.

Q: How do I help strengthen America's peace power when I buy U.S. Savings Bonds?

A: Peace costs money—money for military strength and for science. And money saved by individuals helps keep our economy sound.

YOU SAVE MORE THAN MONEY WITH U. S. SAVINGS BONDS

Mounts Speaks To Local Garden Club

M. U. Mounts, County agricultural agent, spoke on "Landscaping" at the September meeting of the Canal Point Garden Club.

The speaker gave club members some suggestions for appropriate plantings of ornamental shrubbery in the new roadside park which the club is developing with the help of the Lions Club. This park consists of a triangular plot of ground lying between the old and new highways east of the Barad building. Until the two clubs started working on the project a few months ago the land was covered with an unsightly growth of brush and also had on it two or three shacks. The land has now been cleared, drained and has a good growth of sod, ready for the planting of ornamentals, according to a report given at the meeting.

The club voted to sponsor a bazaar on Nov. 15, the place and opening hours to be announced later. Mrs. M. C. Carter and Mrs. J. W. Repper were hostesses.

It was announced the next meeting will be at the home of Mrs. O. H. Sheppard, with Mrs. J. S. Harrington, co-hostess.
